

Hello all clubs, members of the European Gold Wing Federation!

Gold Wing Club of Ukraine, thanks for the help and support of all members of the European Federation! We know that many club members are now personally helping Ukrainians. We all feel that you are with us, and we fight desperately, not to let evil go beyond our borders and push it back. So, one of the part of humanitarian cargo to help Ukraine was collected with the help of the European Goldwing Federation. We managed to purchase medicines and tactical medical help, which are in great need now in Ukraine. The European Federation transferred 1,000 euros to us, this money helped us to buy antibiotics and antiseptic items. And some clubs participated in additional assistance, for which we are also very grateful to them! The Gold Wing Club of Ireland transferred 400 euros to our account and the Gold Wing Club of Sweden transferred 400 euros with those money we were able to buy tactical drugs (medicine) that are very valuable for us today to stop blood, thank you, one such box can save at least 30 lives, during bombing many are wounded, and often people die from blood loss. The Gold Wing Club of Austria donated 1,000 euros to us. We bought wound dressing kits. All that is required, it is also very consumable material that Ukraine needs endlessly today. An activist from the Gold Wing Club of Hungary, Peter Perger, managed to organize many of his club members and we received food and hygiene products from them. We are also very grateful to the Gold Wing Club Turkey from all Ukrainians, we know that the Turkish club is actively collecting and sending aid from Turkey to Ukraine! Many thanks to all of you! We feel like we are in a big friendly family and this makes us stronger!

Best wishes, Gold Wing club Ukraine
